Office of Sustainability Initiatives Summer 2016 General Internships

(Multiple Positions)

Emory’s Office of Sustainability Initiatives (OSI) is seeking qualified students to participate in our student internship program. OSI relies heavily on the work of students for research, benchmarking, implementation, and outreach in all areas of sustainability. Based on student interests and OSI’s needs, interns work on a variety of projects throughout the semester in the areas of energy, water, sustainable and local food, climate action plans, Green Office, Green Labs, sustainable events, and other sustainability initiatives.

Interns are paid hourly and typically work up to 20 hours/week during the summer, depending on OSI needs and intern availability. OSI does not have extra office space for students, so work is done remotely with regular meetings with staff to discuss projects.

Desired Qualifications

• Strong writing, verbal and analytical skills
• Interest in and understanding of principles of sustainability and environmental stewardship
• Comfortable working independently with regular check-ins on activity and progress

Eligibility

All undergraduate and graduate students enrolled at Emory University may apply. All majors welcome, but those seeking experience in a field related to sustainability are preferred.

How to apply

Submit your resume, cover letter, and availability (hours/week, start date, end date, any weeks you will be on vacation) to Taylor Spicer at tspicer@emory.edu. Application materials are due Tuesday, March 22nd. Top applicants will be invited for interviews soon after.

In your cover letter, please:

• Discuss any experiences that have shaped your interest in sustainability
• Indicate the areas of sustainability in which you have interest (e.g. food, energy, water, etc.)
• Explain how the internship will contribute to your academic and professional development

Questions regarding the student internship program should be directed to Taylor Spicer at tspicer@emory.edu.
