**Sustainable Commuting**  
*Better choices for the environment*

**HIGHLIGHTS**

From riding on a Cliff Shuttle partially powered by used cooking oil from campus and hospital kitchens to choosing to share a ride with a friend, Emory offers our community a multitude of options to reduce the environmental impact of getting to and around our campuses.

*By 2020, all non-essential employees will telecommute at least one day a week.*

**BENEFITS**

- Keeping cars off the road reduces greenhouse gas emissions and air pollution while reducing traffic and the need for expensive parking deck construction. Every month, about 240,000 rides are taken on the Cliff shuttle system.

- Encouraging telecommuting supports a healthy work-life balance, and walking and biking have environmental and health benefits.

**HOW IT WORKS**

- **Emory Transportation** offers a wide range of commute alternatives including Park-n-ride facilities at the North Dekalb and South Dekalb shopping malls, information on vanpools and carpools and other resources.

- Staff **enrolled in the smart commute program** are eligible for a variety of benefits including free MARTA transit passes, and benefits are available to graduate students who use commute alternatives.

- Emory supports biking to and around campus! Check out resources and support to help you get around on two wheels.

- **Enterprise CarShare** is a car share program that a convenient and flexible method of transportation for the Emory community.

- Two **Electric Vehicle (EV) charging stations** are located at Clairmont Tower on Clairmont Campus and an additional 4 EV charging station at Peavine II parking deck. Two EV charging stations are available on the Oxford campus in the Fleming parking lot.
