

Applying Resiliency Framework to Emory

Health and Well-being

- Address the well-being of students, staff and community members in times of emergency
- Assess the availability of food, water, shelter, and sanitation in the event of loss of electricity or other extreme events
- Address the capacity to assist influxes of displaced people as a result of extreme events in other locations

Economy and Society

- Have well-managed economic resources
- Implement effective systems to deter crime and prevent corruption
- Develop cohesive social structures
- Increase engagement and participation of the community

Infrastructure and Ecosystems

- Maintain quality of infrastructure and transportation that are diverse and affordable
- Establish web of connectivity where all parts of Emory smoothly transition to other parts (Baker Woods, Lullwater Reserve, Main Campus)

Leadership and Strategy

- Leaders: Students, Environmental Sciences Department, OSI, Administration, and/or Community Leaders (RHA, RA)
- Signage posted for campus-designated Storm Centers
- Instruction and distribution of evacuation protocols
- Implement Emory's sustainable efforts in more diverse settings
